

Stacked bar chart showing the distribution of vegetation types across five time bins: Glaciation, LGM, Deglaciation, Transition, and Holocene. The y-axis represents the proportion of vegetation type, ranging from 0 to 1.0. The x-axis represents the time bin. The legend identifies six vegetation types: Tundra (dark blue), Conifer (light blue), Deciduous (green), Grassland (yellow), Desert (dark green), and Shrubland (brown).

Time bin	Tundra	Conifer	Deciduous	Grassland	Desert	Shrubland
Glaciation	0.00	0.25	0.55	0.02	0.15	0.03
LGM	0.00	0.15	0.35	0.35	0.10	0.05
Deglaciation	0.05	0.00	0.30	0.02	0.25	0.38
Transition	0.05	0.02	0.05	0.55	0.20	0.13
Holocene	0.55	0.05	0.05	0.55	0.00	0.20
